ACBA MEETING ▪ SEPTEMBER 19, 2016

GUEST SPEAKER(S)

RUSSELL REDDING
PA STATE SECRETARY OF THE
DEPARTMENT OF AGRICULTURE

Russell Redding was nominated to serve as the 26th Secretary of Agriculture for the Commonwealth of Pennsylvania in January 2015. His nomination was confirmed by the Senate on May 14, 2015. Mr. Redding is the former dean of the School of Agriculture and Environmental Sciences at Delaware Valley University formerly Delaware Valley College.

Mr. Redding returned to the area and has said, "It is an exciting time to be in our industry". There has been a lot of interest from the public, business leaders and elected officials in food and food production.

There has been an agricultural and food careers assessment performed at the state level. Based on the research nearly 75,000 jobs in the agriculture and food industries are anticipated to open in the next 10 years. It has been identified the top 25 most in demand positions and among those anticipated vacancies, and approximately 60 percent of those jobs are held by those with an associate's degree, professional certification, high school diploma or less.

There is a current lack of workers who will be needed to fill these jobs. The Department of Agriculture is working to develop the necessary career pathways to ensure a ready supply of workers to fill those gaps.

There is a great challenge ahead to introduce and engage more individuals into the agriculture and food industry. There needs to be new collaborations and a plan of action.

In addition to the challenges we must also be aware and engage in thinking about preserving land. There are about 300 acres being lost each day. The open space does not only provide a source of food but also jobs and our aquifers are recharged from open land.

ANNOUNCEMENTS

Then next Adams County Boroughs Association meeting will be held on November 21, 2016.
