**717-677-4027 FAX**

**[biglerville@comcast.net](mailto:biglerville@comcast.net)**

**When is a building permit necessary? A building permit is required for any construction activity which either changes the use of a property or changes the building structurally. A building permit from Adams County is required for any construction over \$2,500 in value. County permits are available from the assessor's office in the courthouse (337-9837)**

**When must a building be inspected? All structural changes are subject to the Pennsylvania Uniform Construction Code (UCC). Exceptions are made for residential accessory buildings less than 1000 square feet and agricultural structures. There are also exceptions for vacation cabins and religious purposes. Please contact the zoning officer to discuss specifics of your situation.**

**How are the UCC inspections conducted? Biglerville Borough has contracted with a third party inspector. When the building/zoning permits are issued, you will be given the inspector's phone number. It is the contractor's responsibility to contact the inspector and arrange for the required inspections. You must give the inspector a minimum of 24 hours notice. Inspections will be stamped on the building permit placard.**

**What is required to obtain a building permit? Review the list of required items to determine if your application is subject to any of the special requirements listed here. Not all applications will require the same supporting items.**
