Mr. Shealer reported that he might have a budget issue this year due to the rising costs of road materials, and that winter took a toll on Boyd's School Road and it may need more work than anticipated. He added that the engineers are close to finishing the design for the realignment of the road and that will be part of the project.

Ms. McLeish reported that she will be meeting with the PUC on Friday afternoon regarding the Belmont Road Bridge, and she has a meeting with Will Cameron, County bridge engineer, on April 6, 2006 to review the bridge reports. Ms. McLeish also reported that the server is five years old and it needs an upgrade (Sequel) to run the new accounting software. She added that there are several options and she would like to discuss this at the next workshop meeting when she has the prices from Computer Works.
