

## New Pennsylvania Fireworks Law

House Bill 542 was signed into law on October 30, 2017. Under the new law, the Fireworks Act of 1939 was repealed and replaced in its entirety. The questions and answers below highlight the most noteworthy changes.

**Q Which fireworks are Pennsylvania residents now allowed to purchase and use?**

**A** Consumers can now purchase and use "Class C" or "consumer-grade" fireworks that include firecrackers, Roman Candles, bottle rockets, and similar fireworks that contain a maximum of 50 milligrams of explosive material. The expansion includes those fireworks that were previously only available to out-of-state residents.

"Display fireworks," which are classified as those that contain more than two grains or 130 milligrams of explosive materials, and professional-grade aerial shells containing more than 60 grams of pyrotechnic compositions, are still only to be used by professionals with a permit from the municipality where the display will take place.

**Q Who can purchase fireworks?**

**A** Anyone 18 years of age or older can purchase them.

**Q What are the restrictions on where they can be used?**

**A** They cannot be ignited or discharged on a public or private property without express permission of the property owner.

- They cannot be discharged from or within a motor vehicle or building.
- They cannot be discharged toward a motor vehicle or building.
- They cannot be discharged within 150 feet of an occupied structure.
- They cannot be discharged while the person is under the influence of alcohol, a controlled substance, or another drug.
- Also, it is recommended that you check with your local municipality, as you may also be subject to applicable local ordinances.

**Q Where can fireworks be purchased?**

**A** They can be purchased at any licensed facility, including temporary ones. The licenses are issued by the Pennsylvania Department of Agriculture. Examples of temporary facilities include tents or other structures found in parking lots. These temporary structures can sell fireworks between the dates of June 15<sup>th</sup> through July 8<sup>th</sup>, and December 21<sup>st</sup> through January 2<sup>nd</sup> each year. For more information on licensing, visit the PA Department of Agriculture website at:

**Fireworks Safety**

Fireworks are a staple for Fourth of July and other celebrations throughout Pennsylvania. Despite the thrill, fireworks can be dangerous. Nationally, an average of 230 people visit the emergency room every day with firework related injuries in the weeks around July 4<sup>th</sup>. Most of these injuries are to the hands and fingers, but fireworks can also cause serious injuries to your eyes.

Typical fireworks injuries can be caused by firecrackers, bottle rockets, sparklers and more. Sparklers can burn at about 2,000 degrees, hot enough to melt metal!

**Safety Tips**

- Know your ordinances regarding the use of fireworks.
- Know your fireworks; read the cautionary labels and performance descriptions before igniting.
- A responsible adult should supervise all firework activities. Never give fireworks to children.
- Alcohol and fireworks do not mix. Save your alcohol for after the show.
- Use fireworks outdoors in a clear area - away from buildings and vehicles.
- Wear safety glasses when shooting fireworks.
- Never relight a "dud" firework. Wait 20 minutes and then soak it in a bucket of water.
- Keep a bucket of water and a connected hose nearby.
- Never carry fireworks in your pocket or shoot them from metal or glass containers.
- Never set off fireworks within 150 feet of an occupied structure.

**Remember to celebrate safely with your pets**

- Our pets are more sensitive to loud noises, flashing lights and strong smells.
- If fireworks are being used near your home, consider putting your pet in a safe, interior room to avoid exposure to the sound.
- Make sure your pet has an identification tag or is microchipped, in case it runs off during a fireworks display.
- Keep your pet busy. Pet treats or a new chew toy can help distract them during a fireworks display.
