

# McSherrystown Borough Branch and Tree Chipping

-2020-

McSherrystown Public Works will be chipping branches and trees one day per week during the month of May. Specific days will vary based on the crew's work schedule.

For large piles, the Public Works crew will chip for 20 minutes before moving on to other residents. The rest of the pile will be chipped the following week.

The minimum size for branches and trees should be no less than 3/4" in diameter and no more than 8" in diameter. The maximum length in 8'.

All branches and trees should be stacked at the edge of the street with the base facing towards the street.
